Sir:

Please review and enter the following remarks summarizing the interview conducted on  
January 20, 2004:

**REMARKS**

An Examiner's Interview Summary Record (PTO-413) was attached with the  
communication dated January 28, 2004.

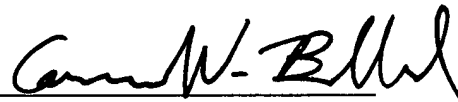

During the interview, the following was discussed:

1. Identification of claims discussed: 1-4, 6 and 23.
2. Identification of art discussed: Yamakita et al.
3. Brief Identification of principal arguments: the arguments presented in the Response under 37 C.F.R. § 1.116 filed October 2, 2003 and the arguments presented in the Response under 37 C.F.R. § 1.114(c) filed December 2, 2003.

4. Results of Interview: Agreement was reached that the Examiner would review the prior art to determine if it requires determination of the normalization processing condition other than in the "reading side" element, which would preclude a reading on the limitation that this condition is determined on the reading side.
